QUARRY AGGREGATES

Practical Solutions, Successful Partnerships

FOR ALL YOUR QUARRYING & AGGREGATE SUPPLIES

At our Loanhead Quarry, Beith, our new Soil Processing and Recycled Aggregate Production Plant installation has the capability of diverting 500,000 tonnes per annum from landfill, when running at full capacity.

This recycling plant is capable of recovering and producing over 200 tonnes per hour of high value recycled products to British Standard-EN 13242 or SHW Series 600, ready for re-use in the Construction Industry.

Our products include:

5-10mm Pipe Bedding	Type 1 Sub Base (Clause 803)
Washed Building Sand	Modified Type 1 and similar SUDS products
10-20mm Pipe Bedding	Various Sizes of Crusher Run, including 6F5
Cable Sand	Mineral rich dusts for soil amelioration
20-40mm Pipe Bedding	Single Size Basalt (Gabion 50/100mm, 20/40 mm, 10/20mm, 10/14mm) and 63-10 stone.
6F5	
Washed Concrete Sand	
75-40 Recycled Aggregates
